

### REMARKS

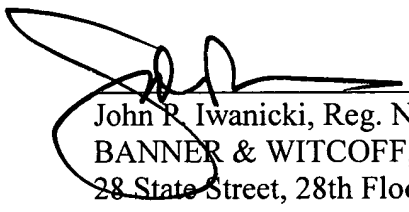

At page two of the instant Office Action, the Examiner has required restriction between two groups of inventions, namely claims 1-20, drawn to a method (Group I), classified in class 427, subclass 247; and claims 21-22, drawn to an article (Group II), classified in class 428, subclass 304.4.

Applicants respectfully traverse the restriction requirement. Applicants believe that the subject matter of claims 1-20 and 21-22 is interrelated to the extent that a search and examination of the subject matter of those claims in the same application would not be overburdensome.

Notwithstanding, Applicants elect the invention of Group I, claims 1-20 for prosecution on the merits.

Respectfully submitted,

Dated: August 10, 2005
